SUMMARY

Computer Science undergraduate with hands-on experience in Python, C++, JavaScript, Flask, and computer vision. Seeking Software Developer and Full Stack Developer internship opportunities to apply problem-solving and web development skills in real-world applications.

EDUCATION

Jain College of Engineering and Technology

Bachelor of Engineering in Computer Science

- CGPA: 8.85/10 (Till 5th Semester) — 6th Semester SGPA: 9.39/10

Sri Guru Chaitanya PU College

Pre-University Course (PCMB)

- Karnataka State Board – Percentage: 90.8%

Sri Basava Public School

CBSE – Class X

- Percentage: 84.6%

Hubballi, Karnataka

Expected Graduation: 2027

Ilkal, Karnataka

2021 – 2023

Ilkal, Karnataka

2019 – 2021

PROJECTS

SmartFit – Gym Posture Detection | Python, Flask, OpenCV, MediaPipe, NumPy, Firebase

Ongoing

- Developing an AI-based fitness application for real-time exercise posture detection, correction, and repetition tracking using Python, Flask, OpenCV, and MediaPipe.
- Implemented human pose estimation, joint-angle analysis, rule-based posture evaluation, and repetition counting for squats, deadlifts, bicep curls, shoulder press, and overhead tricep extensions.
- Integrated Flask backend with MediaPipe and OpenCV for real-time posture analysis and implemented visual and voice feedback.
- Integrated Firebase Authentication and Cloud Firestore for user authentication and workout tracking, with ongoing accuracy testing and tuning.

Food Calorie Detector | HTML, CSS, JavaScript

Mini Project

- Developed a web application that provides calorie information and healthy/junk classification based on user-entered food items.
- Designed a responsive interface using HTML and CSS for intuitive user interaction.
- Implemented JavaScript logic to process user input and dynamically display calorie information and food classification.

CERTIFICATIONS

NPTEL – Software Testing

Elite Certification

Feb. 2026 – Mar. 2026

SWAYAM

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, HTML5, CSS3

Frameworks: Flask, FastAPI, Node.js

Computer Vision: OpenCV, MediaPipe

Libraries: Pandas, NumPy, Matplotlib

Backend & Cloud: Firebase, Cloud Firestore

Developer Tools: Git, GitHub, Visual Studio Code

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Operating Systems

RELEVANT COURSEWORK

Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems
